Welcome to OpenStreetMap

OpenStreetMap creates and provides free geographic data such as street maps to anyone who wants them. The project was started because most maps you think of as free actually have legal or technical restrictions on their use, holding back people from using them in creative, productive, or unexpected ways.

Show me the map!

I want to see maps; get out of my way!

How to contribute: Spot bugs

OpenStreetBugs

Feel free to put on the map the modifications you would like to see on OpenStreetMap (name of a street, incorrect junction, amenity, etc.)

Do NOT use licensed data like paper maps, Google Maps, etc. Use only your knowledge of the reality or public domain data.
