the ubuntu experience

“A traveller through our country would stop at a village, and he didn’t have to ask for food or for water. Once he stops, the people give him food, entertain him. That is one aspect of **ubuntu** but **ubuntu** has various aspects. **ubuntu** does not mean that people should not enrich themselves. The question therefore is: Are you going to do so in order to enable the community around you to improve?” ~ Nelson Mandela

the ubuntu experience

ubuntu is not about an operating system; it is about the community.

the ubuntu experience

- The freedom to run the program, for any purpose
- The freedom to study how the program works, and adapt it to your needs access to the source code is a precondition for this.
- The freedom to redistribute copies so you can help your neighbor
- The freedom to improve the program, and release your improvements (and modified versions in general) to the public, so that the whole community benefits. Access to the source code is a precondition for this.
